

## **Maxillofacial**

### **LFG Lead - Jeremy Collyer**

The Maxillofacial surgery department consists of 8 consultants, 5 senior trainees, 6 junior trainees. In addition to this we also have a head and neck fellow who compliments the senior trainees.

Consultants and senior trainees are all dually qualified in both medicine and dentistry, our junior trainees are either qualified in dentistry and medicine and sometimes both.

We offer training and teaching opportunities for trainees to work towards the MRCS, MFGDP, and the FRCS(OMFS)

Our trainees are supervised according to their training needs and their level of experience.

### **Educational Programme**

We offer an educational programme within the department directed at the core skills of maxillofacial surgery.

Teaching takes place Monday AM. We group the topics for teaching into:

- Facial Deformity
- Head and Neck Oncology
- Facial Trauma
- General Oral and Maxillofacial surgery including dento-alveolar surgery and Oral Medicine

In addition to this our senior trainees attend mandatory monthly regional training days which are rotated around the KSS region.

All trainees get supervised operative experience in theatre, as well as supervision and teaching in clinic
